To ensure that researchers working within the University of Nairobi and/or who are associated with the University work in accordance with established international ethical standards, the University has established the [Ethics and Research Committee \(ERC\)](#) [8] which works with Kenyatta National Hospital (KNH) to provide research ethical clearance.

Researchers at the University of Nairobi as well as Research Affiliates will be expected to familiarize themselves with the ethical clearance. All ethical approvals should be requested within reasonable time and before the research work commences.
